

CARLOS CAZALLAS DELFA

JUNIOR FRONTEND WEB DEVELOPER

PROFILE

Team player, quick-learner, always eager to keep learning and to acquire new skills applying a constant can-do attitude, currently looking for a Junior Web Developer position. Capable of developing a full web app from scratch using JavaScript, React/Vue.js and Node.js as main technologies, now learning Redux to complement my skills and broaden my scope. Spent the last 5 years working in London where I got used to working in fast-paced work environments, now willing to face new challenges in Berlin..

■ 9 weeks intensive coding bootcamp

■ Technologies covered:

- | | | |
|--------------|--------------|--------------|
| - JavaScript | - React | - HTML5/CSS3 |
| - MongoDB | - Node.js | - jQuery |
| - Express.js | - Git/GitHub | - Handlebars |

Land Surveying Engineering

Politechnic University of Valencia. 2004-2008

■ Fields covered:

- Geodesy
- Cartography
- A bit of C++ and Visual Basic 6

PROJECTS

Luo

<https://luocz.herokuapp.com/>

Third project after 9 weeks of bootcamp. I took care of the homepage, the calendar, some routing and the styling using React and loads of CSS.

Freshbook

<https://freshbook.herokuapp.com>

Second project after 6 weeks of bootcamp. A social network strictly made for vegetables. We used Express.js, Node.js, MongoDB, CSS and a bit of Bootstrap.

Manoeuvre

<https://carloscadel.github.io/manoeuvre/>

First project after 3 weeks of bootcamp. A spaceship game where you have to fight gravity, seize your target and deliver it to base. I used Javascript, Canvas and CSS.
